

src/application/city.h

```
graph TD; A[src/application/city.h] --> B[string]; A --> C[vector];
```

A diagram illustrating dependencies. At the top is a gray rectangular box with a black border containing the text 'src/application/city.h'. Two blue arrows originate from the bottom center of this box. The left arrow points down and to the left to a white rectangular box with a gray border containing the text 'string'. The right arrow points down and to the right to another white rectangular box with a gray border containing the text 'vector'.
