

src/application_server
/river.h

```
graph BT; A["src/application_server/river.cpp"] --> B["src/application_server/river.h"]
```

The diagram consists of two rectangular boxes. The top box is shaded gray and contains the text 'src/application_server' on the first line and '/river.h' on the second line. The bottom box is white and contains the text 'src/application_server' on the first line and '/river.cpp' on the second line. A blue arrow points vertically from the top edge of the bottom box to the bottom edge of the top box, indicating a dependency or relationship from the .cpp file to the .h file.

src/application_server
/river.cpp
