

View::mouseMoveEvent

View::mouseReleaseEvent

ToolTipMenu::showAt

```
graph LR; A[View::mouseMoveEvent] --> C[ToolTipMenu::showAt]; B[View::mouseReleaseEvent] --> C;
```

The diagram illustrates a call sequence where two mouse events, `View::mouseMoveEvent` and `View::mouseReleaseEvent`, trigger the `ToolTipMenu::showAt` method. The event boxes are white with black borders, while the method box is gray with a black border. Blue arrows indicate the direction of the calls from the events to the method.
